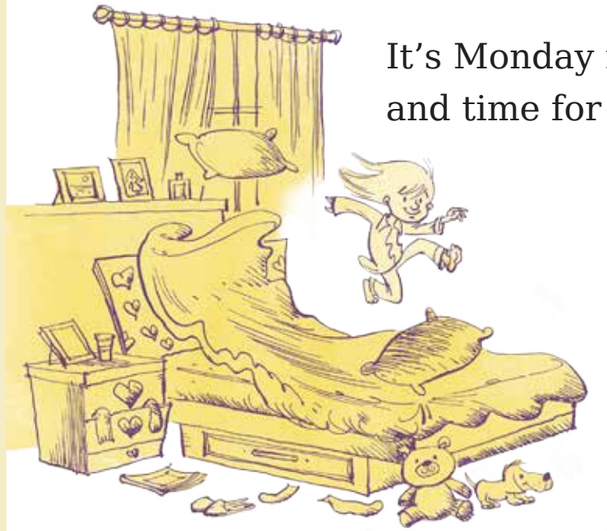
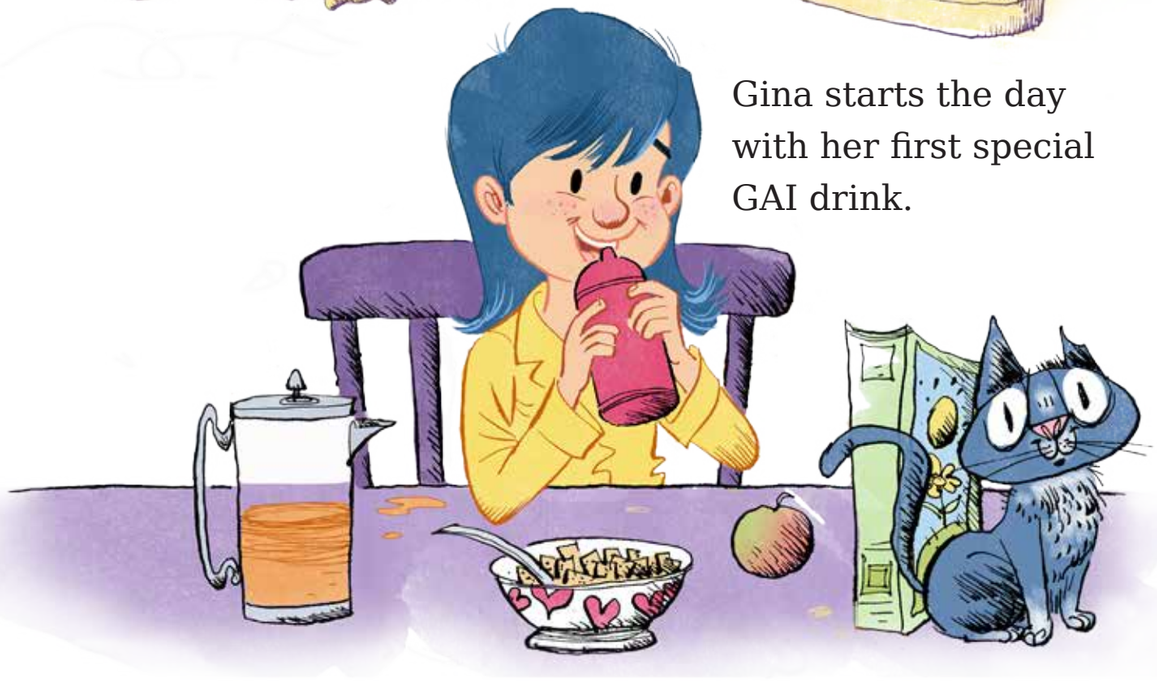
With thanks to those who donate so
generously to the Metabolic Unit

This is George and Gina.
They have GA1 just like you.

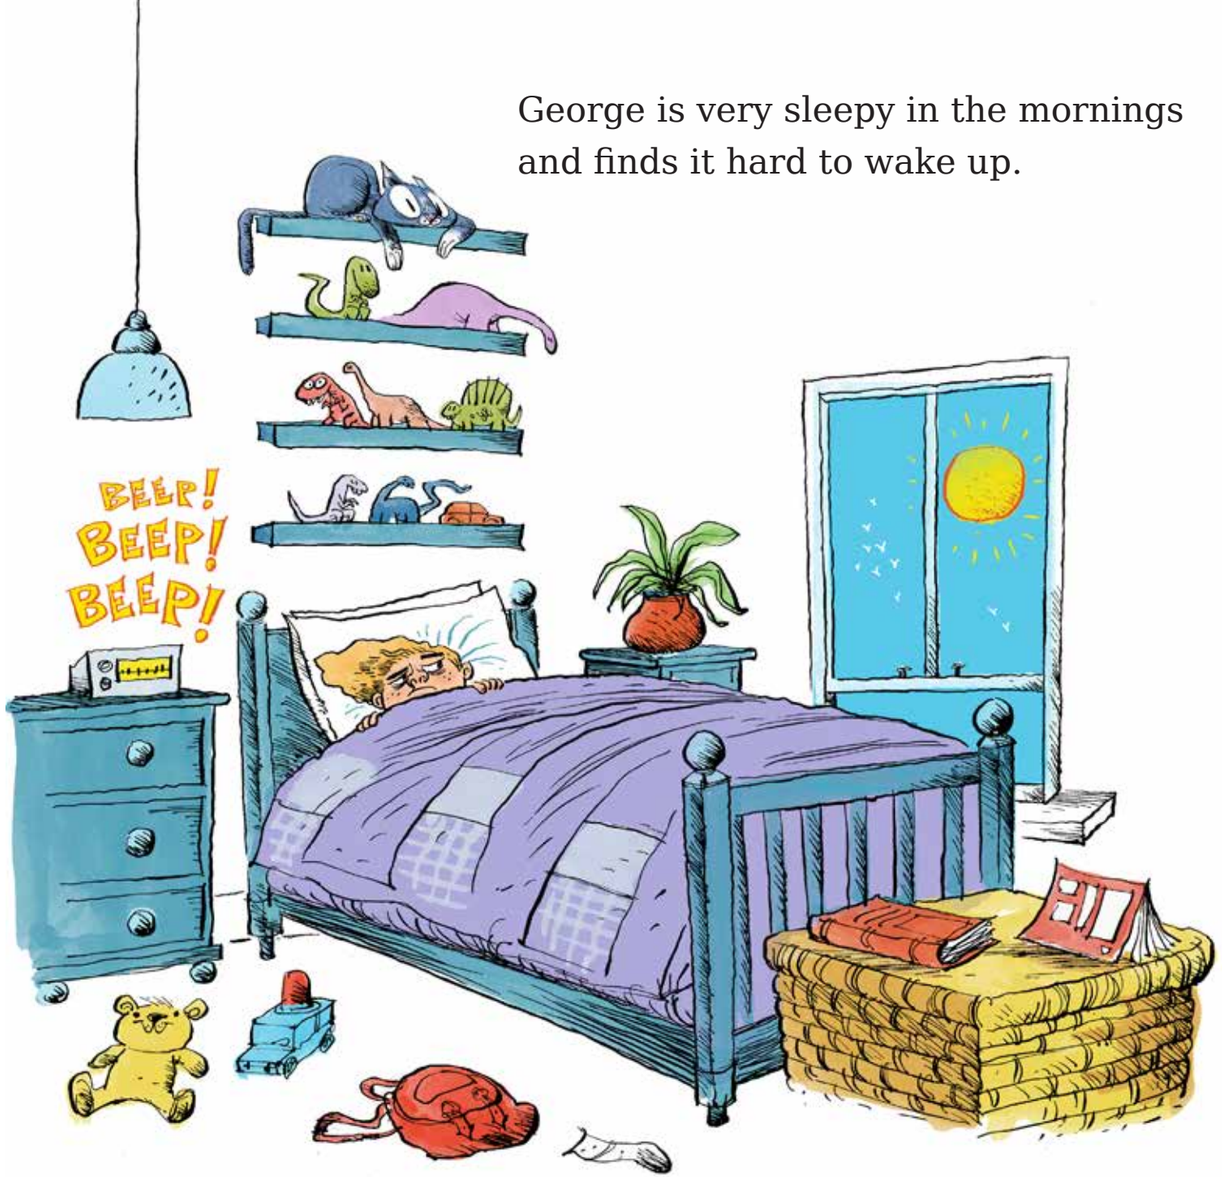


It's Monday morning
and time for school.



Gina starts the day
with her first special
GAI drink.

George is very sleepy in the mornings and finds it hard to wake up.



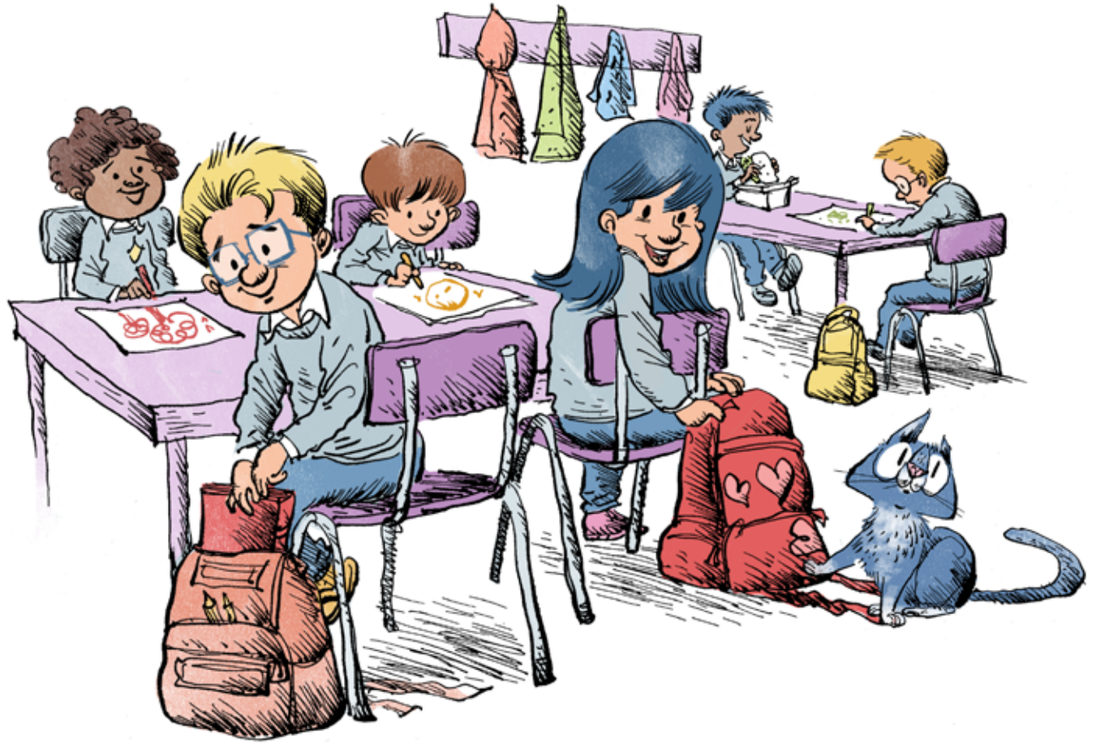
Gina helps her mum make her GA1 drink in a special beaker.

She gets a sticker when she is finished.

George forgets to take his drink which makes him tired and late for school.

Don’t miss the bus George!

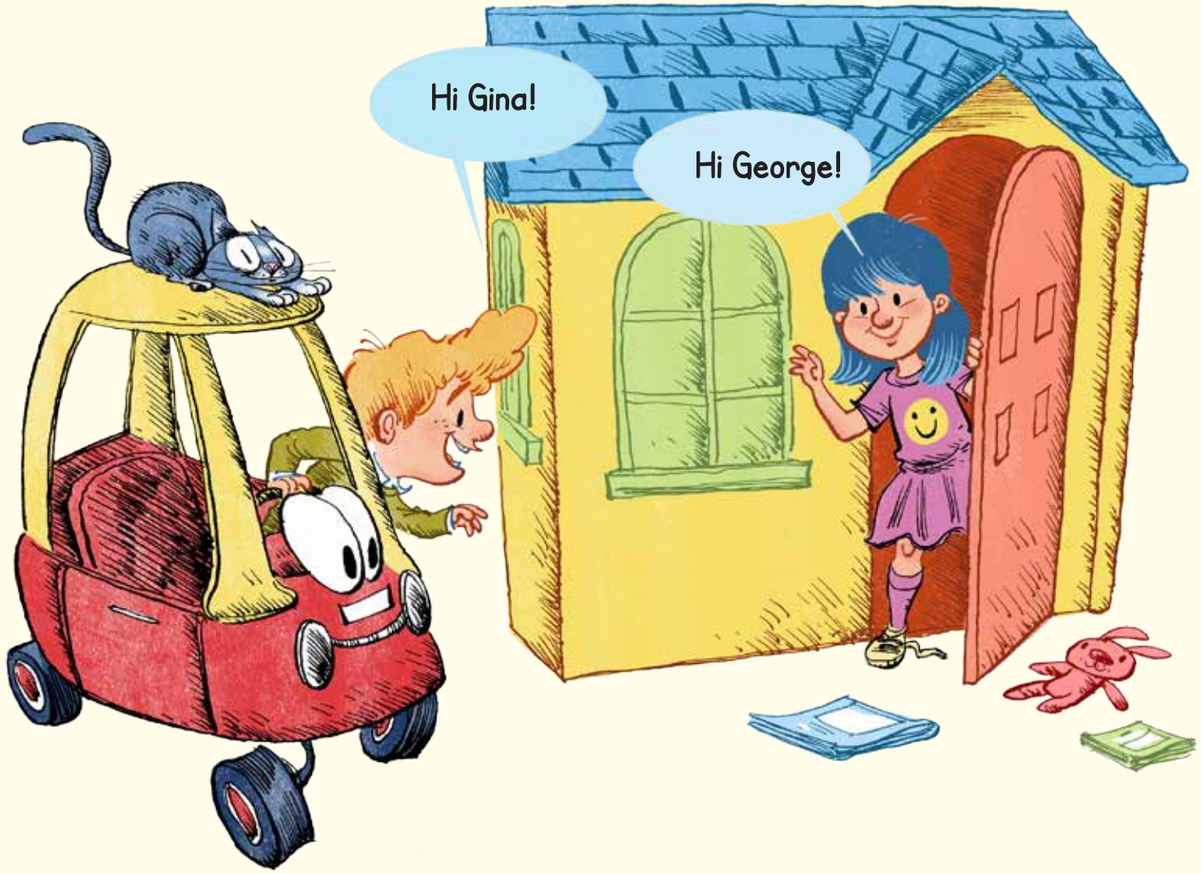
Gina gets to school early and when the bell rings it’s time for her second GA1 drink.



George is so tired he sleeps through lunchbreak!

After school Gina goes to dance class.
She’s a champion dancer!

George is the goalkeeper for the school football team. He lets in a lot of goals!



It’s Wednesday. Gina and George meet at the GA1 Clinic in Temple Street Hospital.

What's that?
It's my special GA1 drink
I have a GA1 drink too!

But I forget to take it sometimes
Maybe that's why I'm so sleepy
Well my drink gives me lots of energy. I get a sticker everytime I drink it!

I want some stickers too...
Well drink your drink then!

I feel BETTER already!

Gina gives George a star for his chart and he never forgets to take his GA1 drink again. Now he has loads of energy when he wakes up in the morning.

And he’s a super goalkeeper!

THE END
