

## Snack O Lanterns

### Ingredients

Large oranges\*

Tinned fruit salad, drained

\* may need to count as exchanges

### Method

1. To make one lantern, use a small knife to slice the top off an orange and cut around its interior to hollow it out.
2. Scoop out the orange segments, chop them, and mix them with canned or fresh fruit salad.
3. Carve small facial features in one side of the orange, and then cut a slit in the lid to accommodate the handle of a spoon.
4. Fill the lantern with fruit salad.
5. Insert the spoon and set the lid in place.
