With thanks to those who donate so
generously to the Metabolic Unit

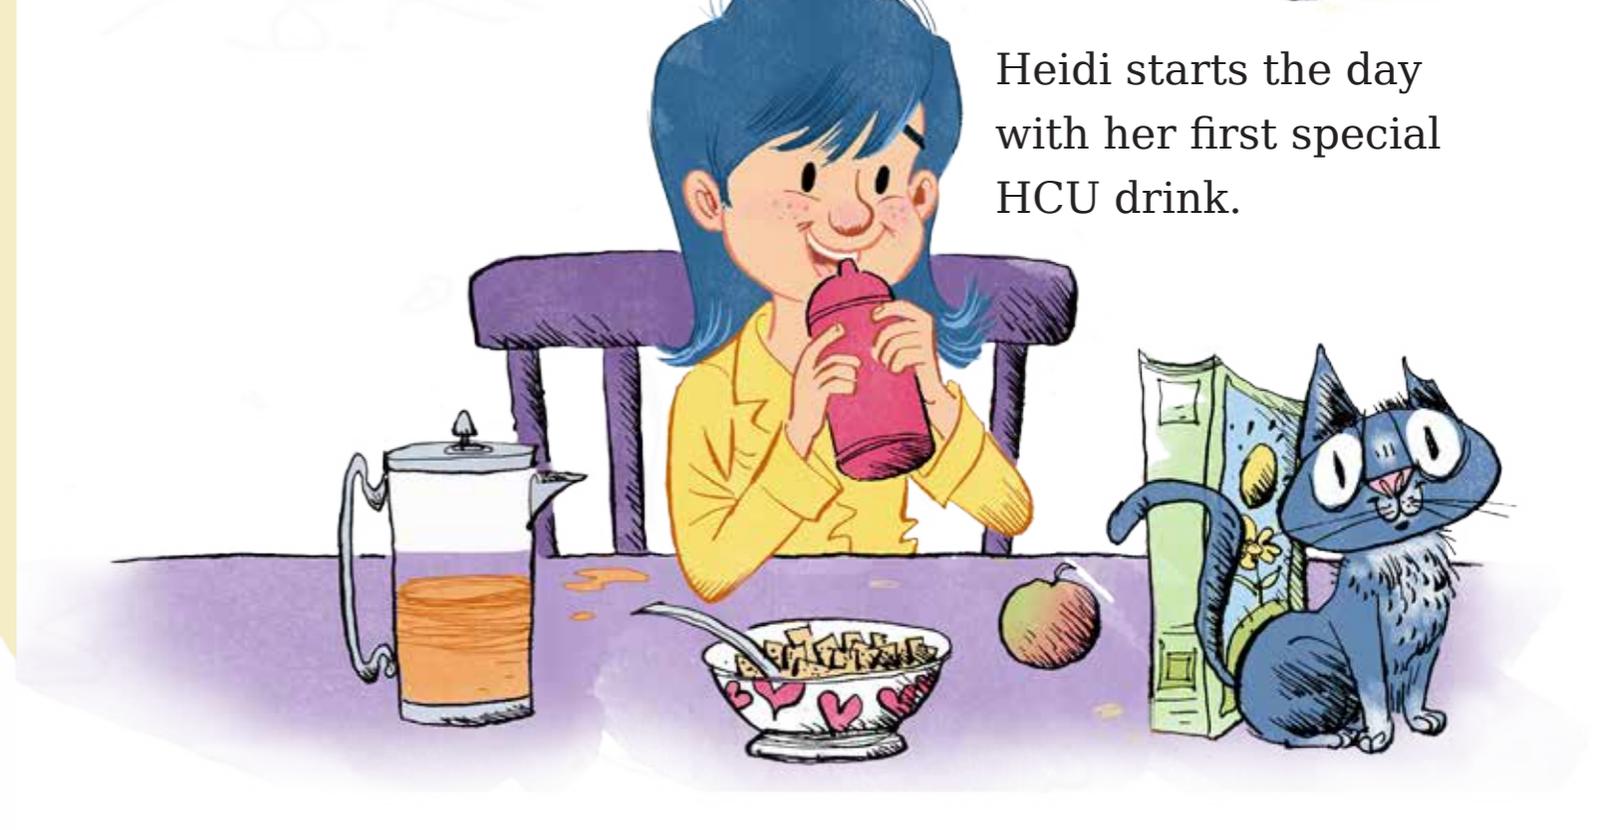

This is Harry and Heidi.
They have HCU just like you.

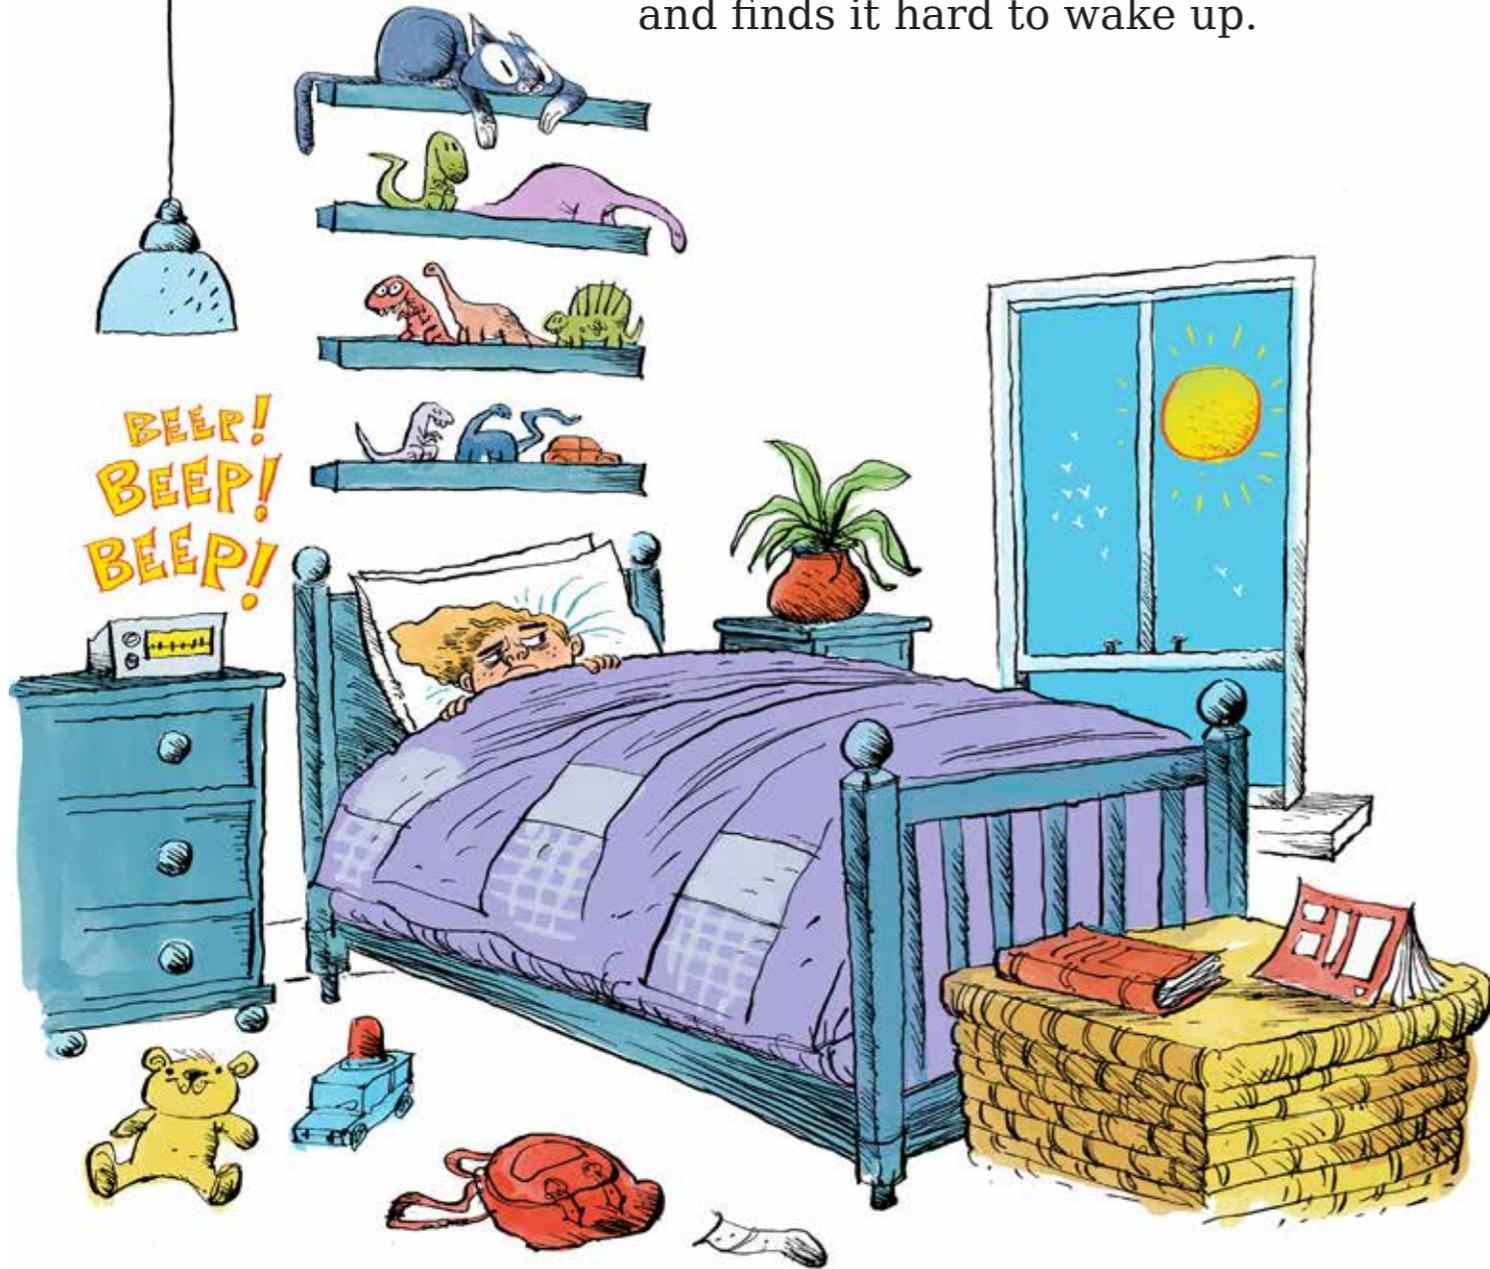

It's Monday morning
and time for school.

Heidi starts the day
with her first special
HCU drink.

Harry is very sleepy in the mornings and finds it hard to wake up.

Heidi helps her mum make her HCU drink in a special beaker.

She gets a sticker when she is finished.

Harry forgets to take his drink which makes him tired and late for school.

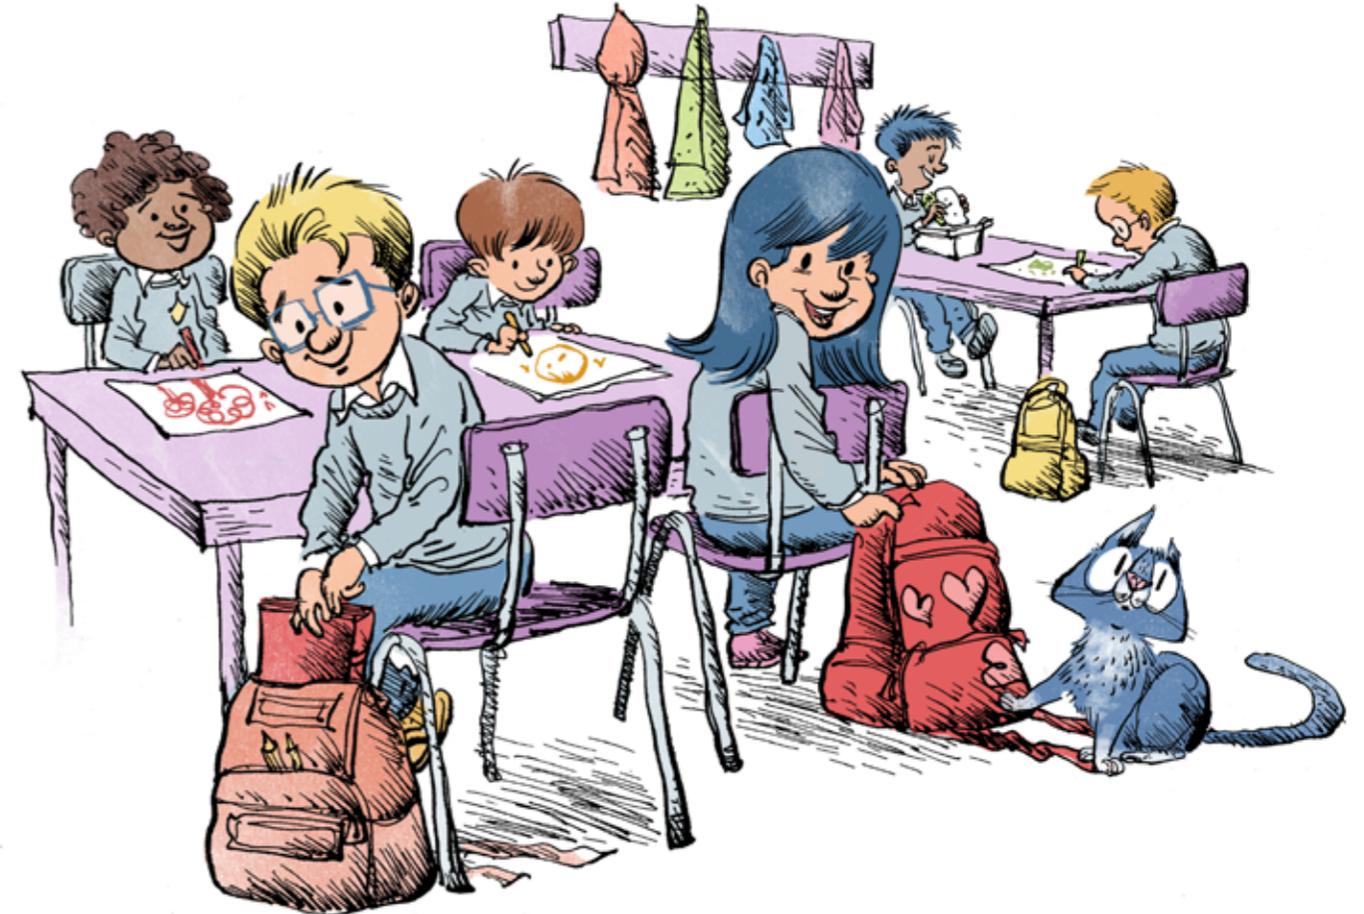

Don't miss the bus Harry!

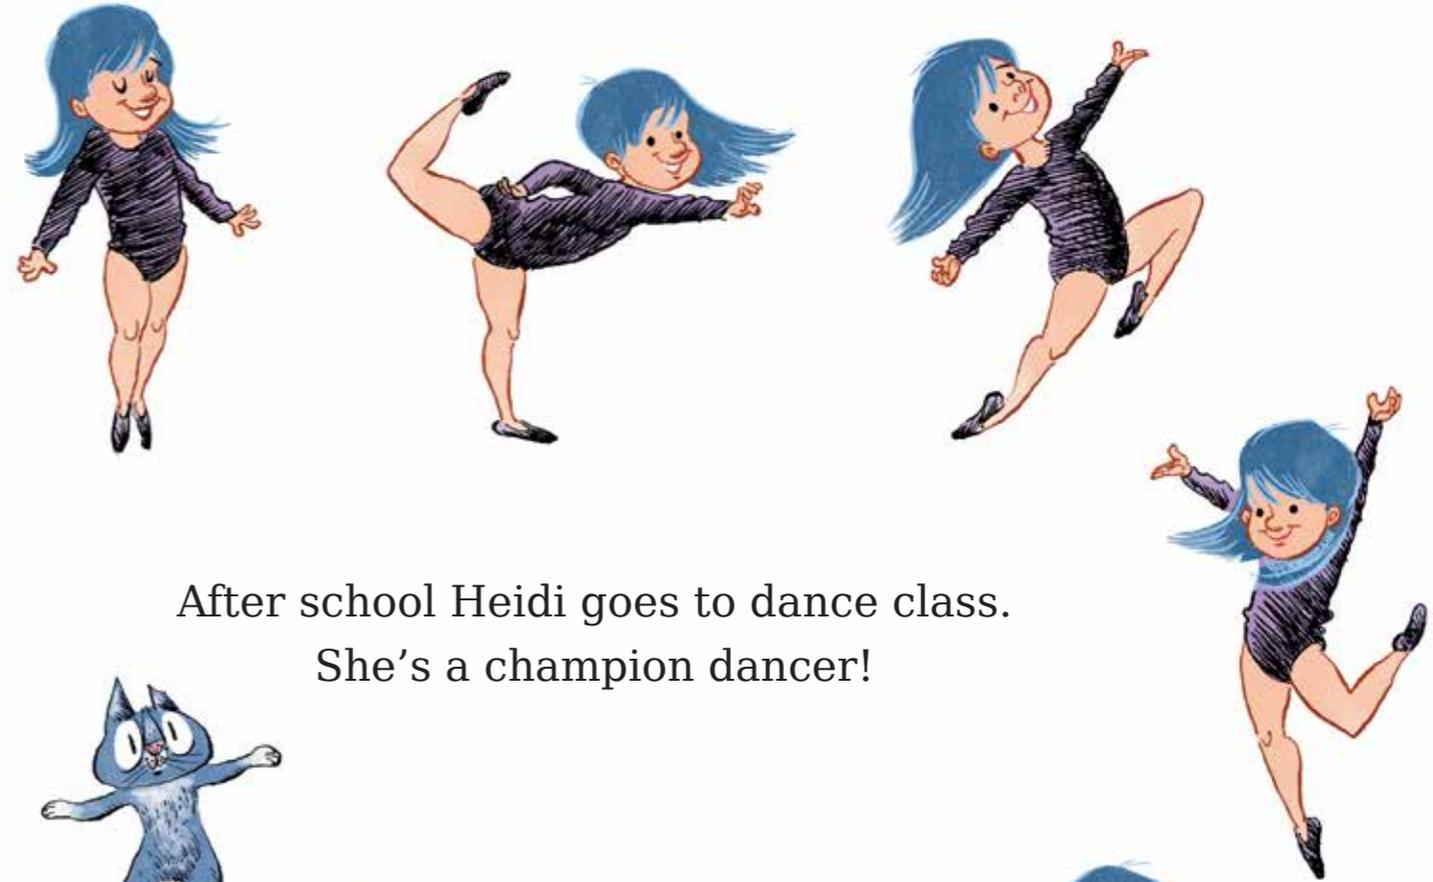

RING RING RING

Heidi gets to school early and when the bell rings it's time for her second HCU drink.

Harry is so tired he sleeps through lunchbreak!

After school Heidi goes to dance class.
She's a champion dancer!

Harry is the goalkeeper for the school football team.
He lets in a lot of goals!

It's Wednesday. Heidi and Harry meet
at the HCU Clinic in Temple Street Hospital.

What's that?

It's my special HCU drink

I have a HCU drink too!

But I forget to take it sometimes

Maybe that's why I'm so sleepy

Well my drink gives me lots of energy. I get a sticker everytime I drink it!

Heidi gives Harry a star for his chart and he never forgets to take his HCU drink again. Now he has loads of energy when he wakes up in the morning.

And he's a super goalkeeper!
