With thanks to those who donate so
generously to the Metabolic Unit

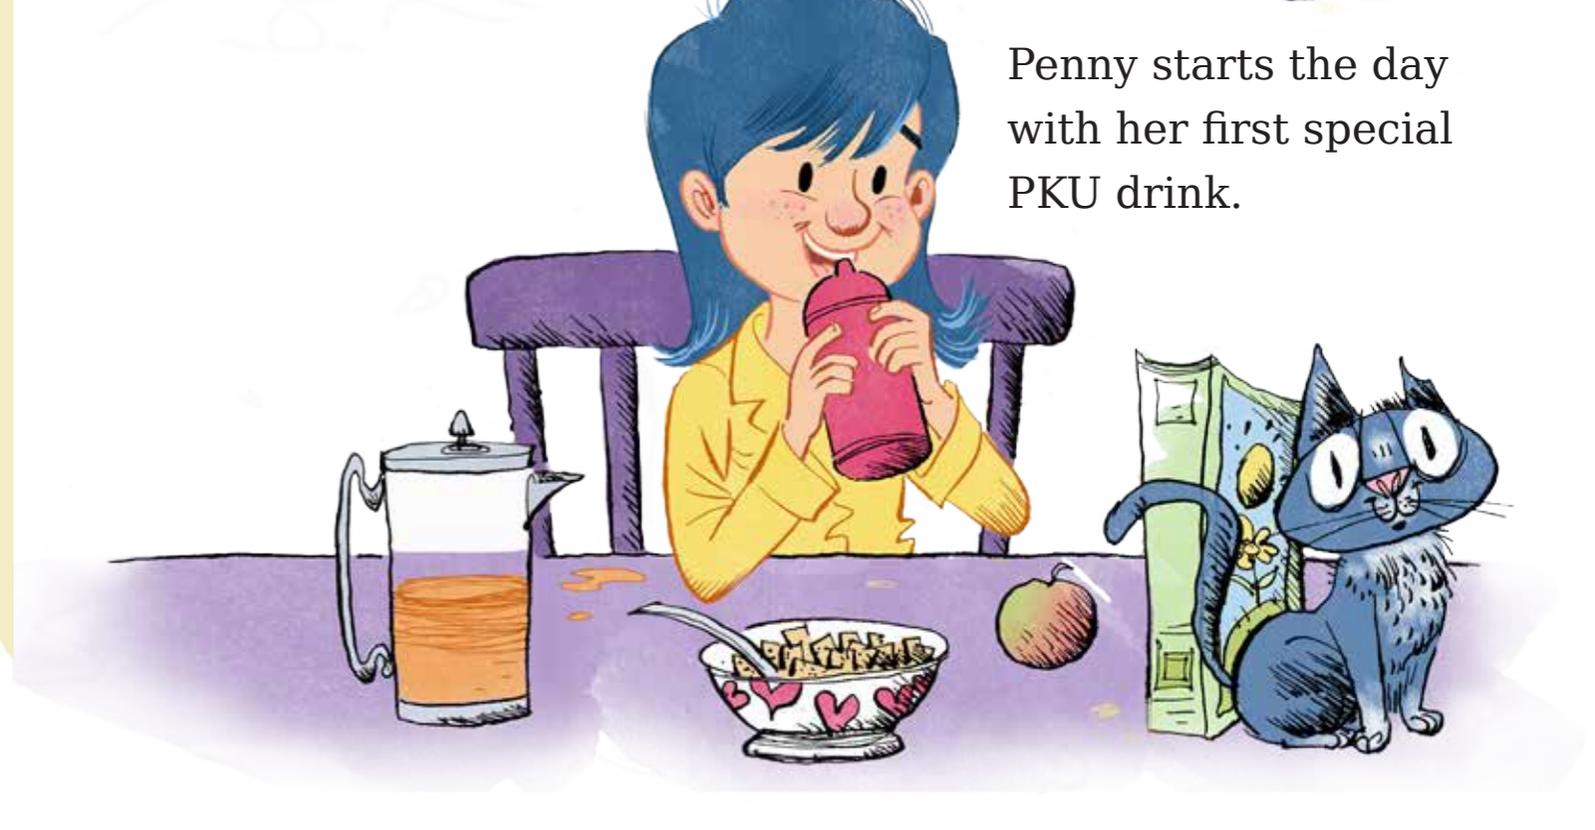

This is Paul and Penny.
They have PKU just like you.

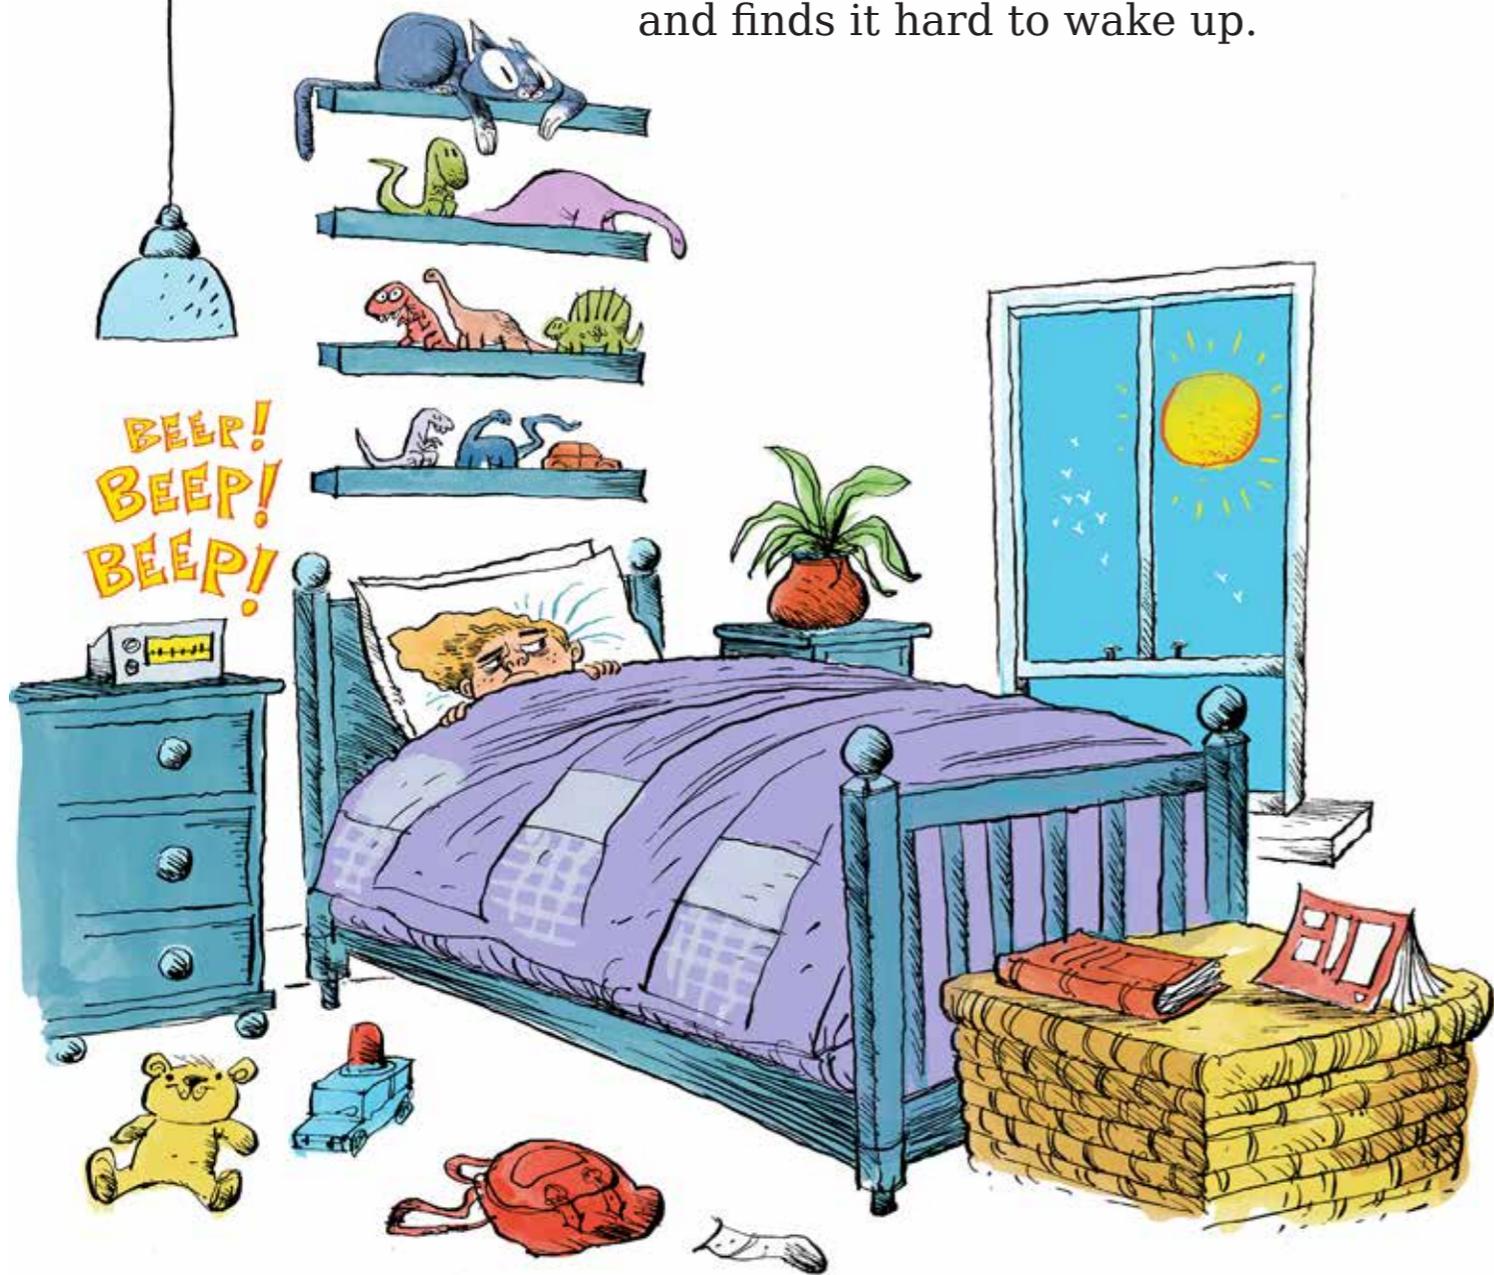

It's Monday morning
and time for school.

Penny starts the day
with her first special
PKU drink.

Paul is very sleepy in the mornings and finds it hard to wake up.

Penny helps her mum make her PKU drink in a special beaker.

She gets a sticker when she is finished.

Paul forgets to take his drink which makes him tired and late for school.

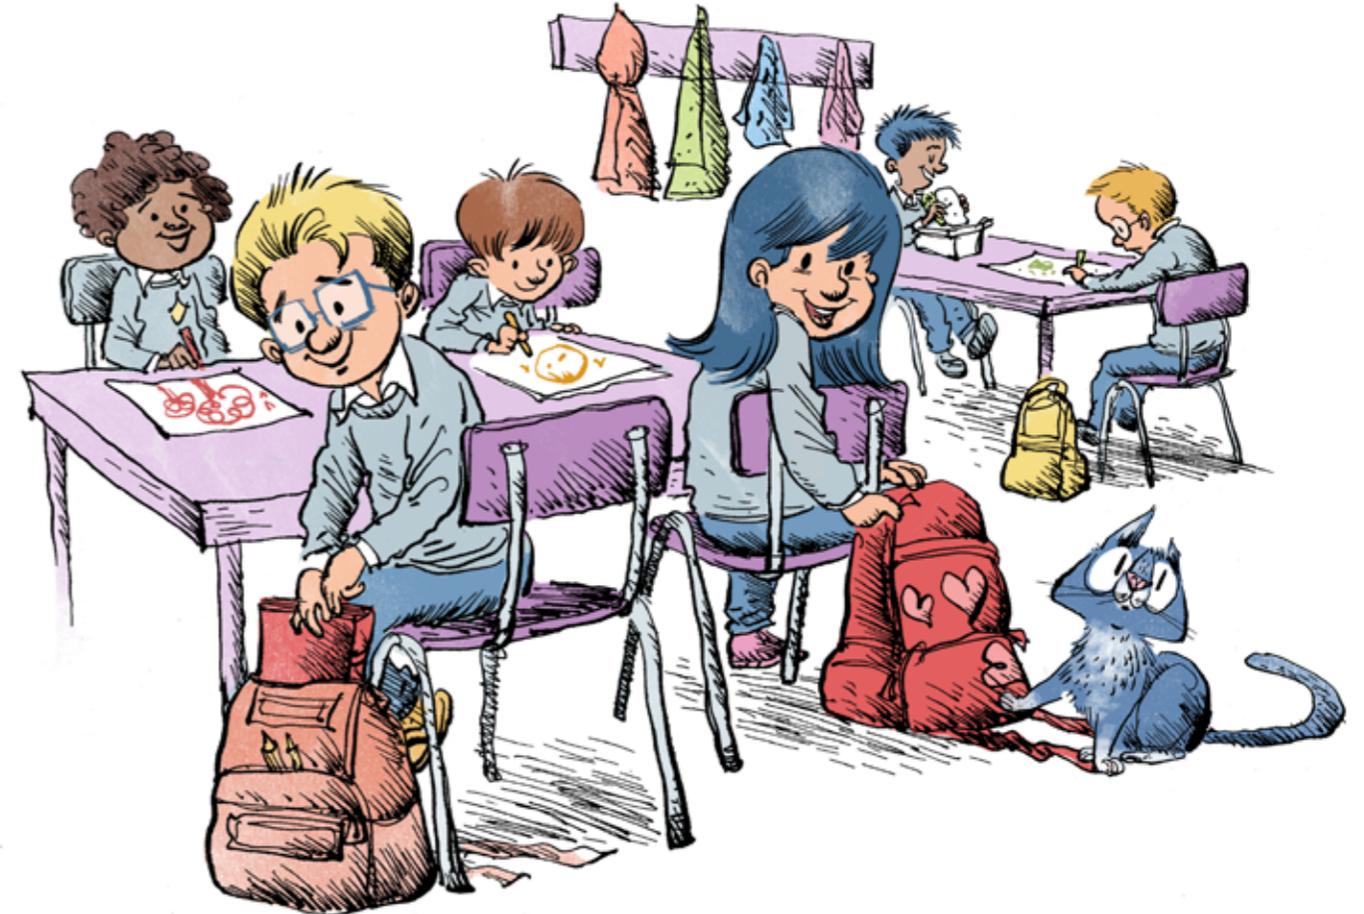

Don't miss the bus Paul!

RING RING RING RING

Penny gets to school early and when the bell rings it's time for her second PKU drink.

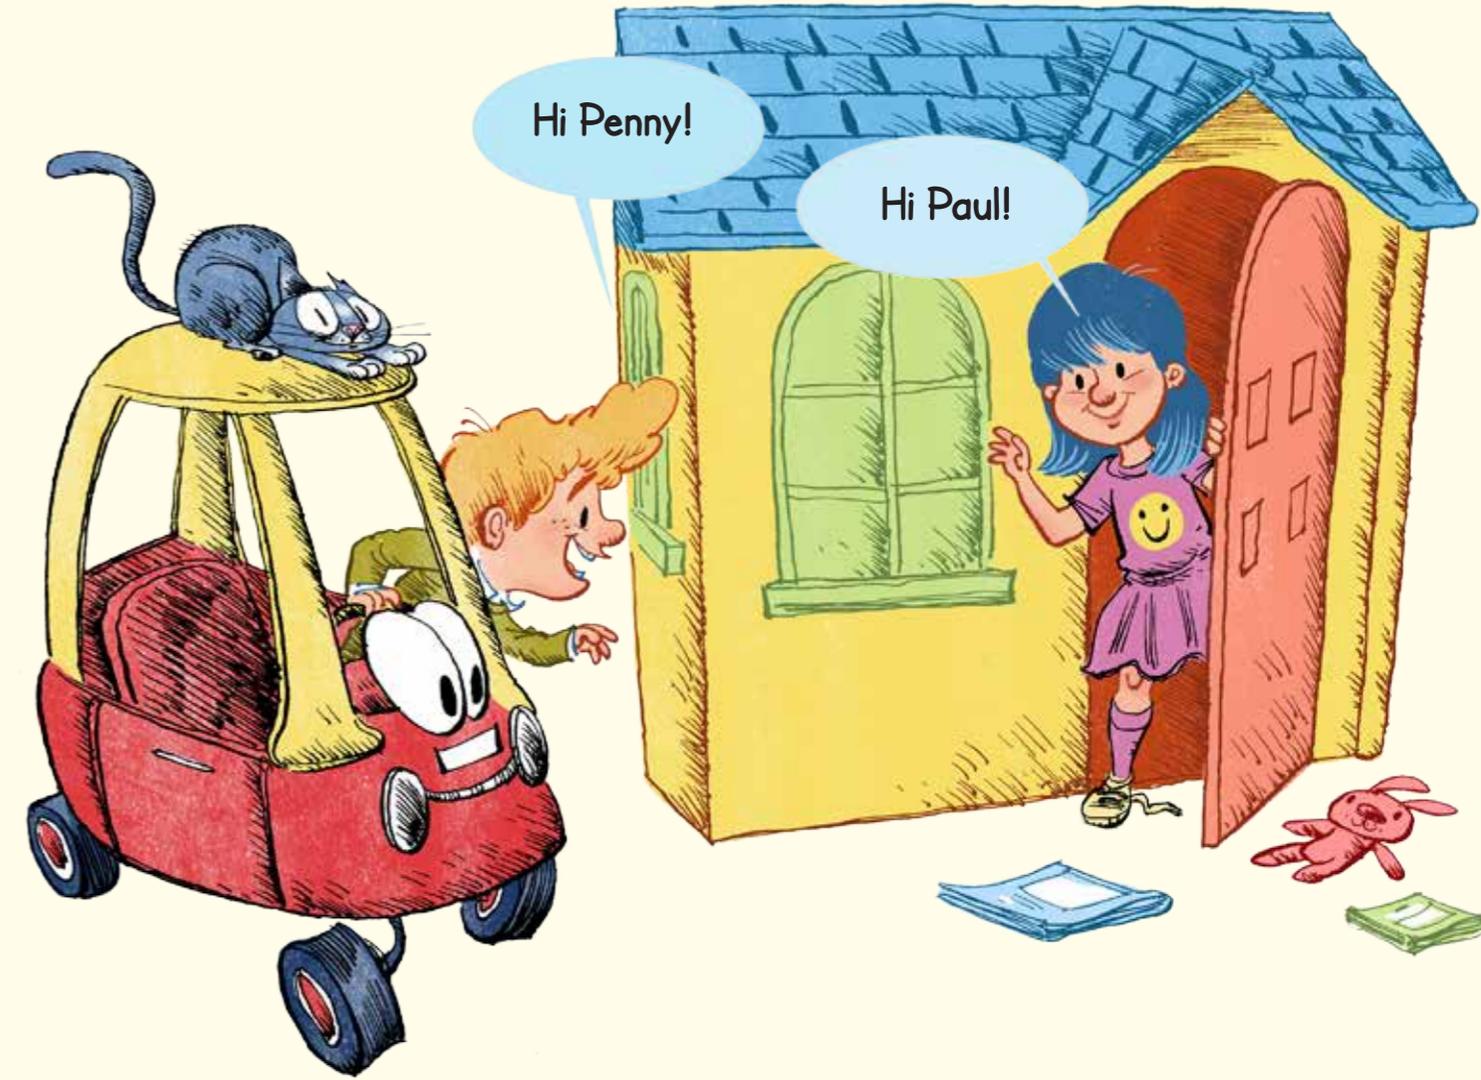

Paul is so tired he sleeps through lunchbreak!

After school Penny goes to dance class.
She's a champion dancer!

Paul is the goalkeeper for the school football team.
He lets in a lot of goals!

It's Wednesday. Penny and Paul meet
at the PKU Clinic in Temple Street Hospital.

What's that?

It's my special PKU drink

I have a PKU drink too!

But I forget to take it sometimes

Maybe that's why I'm so sleepy

Well my drink gives me lots of energy. I get a sticker everytime I drink it!

Penny gives Paul a star for his chart and he never forgets to take his PKU drink again. Now he has loads of energy when he wakes up in the morning.

And he's a super goalkeeper!
